

96 in. Ballast Cover Retrofit Kit

For (4) T8 Lamps

FEATURES

INTENDED USE

Ballast retrofit kit, 96 in. long, converts an existing strip to carry standard lamps. Material is die-formed 22 gauge steel, with high reflectance baked white enamel finish. Ballast and mounting plate may be removed for service without disturbing 96 in. cover.

KIT INCLUDES

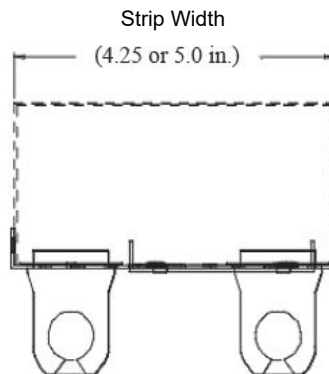

- (1) 96 in. ballast cover with lamp holder cut outs
- (1) Ballast mounting plate
 - Short lamp holders (style and quantity as specified)
- (1) Yellow connector

[1] Shunted lamp holders (L10) are suitable for instant start ballasts, un-shunted (L11) for rapid or pro start ballast

T8 Style lamp holders only available for 8 ft. kit

Two (2x2) lamp positions shown
