

2.5W LED T6 2100K FILAMENT NOSTALGIC E12 FULLY COMPATIBLE DIMMING

Item #776904

Ordering Code LED2T6/21K/FIL-NOS/3

UPC 739698769042

- Long life LEDs for lasting appeal – 15,000 hours
- Fully compatible with all dimmer types
- Suitable for fully enclosed luminaires

Dimmer Compatibility Guide

PLEASE NOTE: Compatibility list is based upon testing conducted by the manufacturer in a lab simulated environment. Actual results may vary.

Product Family Name:

Item Number: 776880
Ordering Code: LED2T6/27K/FIL/E12/3

Item Number: 776804
Ordering Code: LED2T6/22K/FIL-NOS/3

Lamps per Dimmer

	Manufacturer	Product	Model Number	Overall Rating	Lamps per Dimmer		Notes
					Recommended Minimum	Maximum Tested*	
Incandescent/Halogen (Triac/Phase Cut/Leading Edge Dimmers)	Leviton	IllumaTech	IPI06	Best	1	6	Dims down to 0.1% with 1-6, minor flicker at Med with 1
		SureSlide	6633-P	Best	1	6	Dims down to 0.1% with 1-6, minor flicker at HE with 1
		Vizia	VPI06-1LZ	Bad	1	6	Dims down to 0.1% with 1-6, minor flicker at Med with 1 & LE with 2-4

		Skye	SAL06P-W-K-L	Best	1	6	Dims down to 1% with 1-6

*Maximum Tested (Lamps per Dimmer) - Additional lamps may work with your dimmer system. For maximum capacity please consult dimmer manufacturer.

†May experience "pop-on", lights cannot be turned on immediately to their minimum level. The slider needs to be raised above the minimum light level for the lights to first turn on if they were initially off. Then, the slider can be lowered to get to a lower light level; the dimmer cannot be turned on to just the minimum level.

Overall Rating

Not Compatible	One or more of the following observed: Major flickering at various points, significant audible noise, no dimming range, does not turn off.
Bad	One or more of the following observed: Some flickering observed at various points, audible noise may be present, dimming not smooth.
Good	One or more of the following observed: Minor flickering at some point may exist. Dead travel may exist, which means there may be periods of time when the slider (or other form of control button) is moved without affecting the light level. These periods of dead travel are minor and most of the time not visible. Minor audible noise.
Best	Most of the following observed: No flickering, minimal audible noise (typically less than 25 dBa), wide dimming range - can dim down to 20% or less of light output.
High End (H.E.) Dead Travel	Determines how much, if any, dead travel exists at the top and bottom of the dimmer's range. Dead travel is when the slider can be moved without affecting the light level.
Low End (L.E.) Dead Travel
