	Nova	NTELV-600	600	Reverse Phase / ELV	10-100%	Compatible
Levtron	IllumaTech	IPE04-1LZ	300	Reverse Phase / ELV	20-100%	Compatible
Legrand	Adorne	ADTP703TU	700	Reverse Phase / ELV	10-80%	Compatible

GREEN CREATIVE has provided this dimmer switch compatibility chart for guidance when selecting a dimmer and lamp combination. Our lamps were tested for compatibility with the above listed dimmers. Dimmers that do not appear on the chart might still be compatible but have not been tested. All testing has been performed with a stable main supply. The quality of the local main, existing installation and wiring, as well as different manufacturer versions of the above dimmers may affect dimming performance. Since no assurance can be provided regarding these factors, it is a general recommendation to perform a test on-site prior to installing the LED lamps.
