

# MAGNITUDE VERSADRIVE

## 5-Way Universal Dimming

### 24V LED Driver

ELECTRONIC DRIVERS | Constant Voltage

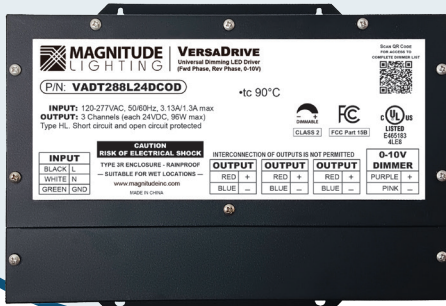

The MAGNITUDE VERSADRIVE is an LED driver that you can trust. It meets FCC consumer limits for radiated RF and carries a 5-year warranty. It's compact size fits in tight spaces and a +90% efficiency helps it run cool.

#### Two Versions

- 288W 3-Channel with 3 x 96W Class 2 outputs
- 300W 1-Channel Class 1 output

#### 5-Way Universal Dimming

- Forward phase (MLV)
- Reverse phase (ELV)
- 0 – 10V
- 0 – 10V PWM
- Potentiometer

ELECTRONIC DRIVERS | Constant Current

MAGNETIC DRIVERS | Constant Current

WE DRIVE LIGHT

# MAGNITUDE VERSADRIVE

## Key Features and Benefits

### Performance

- 288W 3-Channel (3 x 96W Class 2)
- 300W 1-Channel
- Smooth, flicker-free dimming to 1%
- Constant power overload protection

### Versatility

- 5-way universal dimming
- Compatible with a wide variety of LED products, including high-density and COB
- Compact size allows many mounting options

### Reliability

- Outdoor-rated NEMA 3R enclosure with corrosion-resistant stainless steel screws
- Overload protection
- Protected with a 5-year warranty
