4ft. LED Lamp Recycling Box

Recycling LED light bulbs is an important step in helping to protect our environment and reduce our carbon footprint. Although the Light-emitting diode (LED) does not consist of mercury it is still important to recycle due to the electronic components they contain. The Pak 4ft. LED Lamp Recycling Box can help you safely and easily dispose of these. Just fill, seal the box and contact FedEx for a pick up.

Overall Dimensions
6" x 6" x48"
