DEEP REGRESSED

LED DOWNLIGHT

The Original Commercial Retrofit Downlight In The U.S

A smart design that one LED engine fits all this product.

It has been upgraded 4th generation since 2013. The downlight system represents the culmination of engineering experience. We've made every engine to work seamlessly with the all trims, making it truly modular. What's more, it allows you to adapt to changing needs without renovations, putting you in complete control of your light. It is the ideal way to retrofit incandescent, CFL and HID to LED into existing recessed housing or frame-in kit.

It is designed and engineered for recessed applications, which is suitable for commercial and public places, such as shopping mall, hospital, airport, hotel lobby, etc.

 Application: Retrofit

Twist And Lock Engine - Lower Stock Risk Allow Easy Modifications On Site

Light engine is mounted directly to aluminum trim providing superior thermal management to ensure long life. Spun aluminum reflector integrated with haze finish and white trim ring with shadow free. Deeply regressed diffusing lens conceals the LEDs from direct view.

PLT-90326 - 18/27/40W, 3000/3500/4000K, 120-277V
 PLT-90327 - 50/65/80W, 4000K, 120-277V

*Available via Special Order . Call 1-800-624-4488.

LED Driver

Isolated and class 2 output led driver that accommodates input voltages from 110-277 volts AC or 110-347 volts AC, dimming with the use of most 1-10V dimmers.

We deliver better light you can see, experience and benefit from.

We don't compromise on quality- so much so that all our commercial products are rigorously tested, often for years, to ensure the highest levels of performance and reliability.

Excellent Heat-Sink

Light engine is mounted directly to aluminum trim providing superior thermal management to ensure long life.

CCT Selectable & Wattage Adjustable

A adjustable slide switch comes standard with three adjustable wattage levels and three selectable CCT, providing the flexibility to adapt to the changing needs of the space, setting, or environment.

Easy Installation

It is the ideal way to upgrade virtually any existing incandescent, CFL and HID commercial open frame rough-in section to high-performance LED illumination in a matter of minutes. It is provided with spring steel friction clips allowing for installation. Quick disconnection in j-box allows for easy wiring of retrofit conduit whip assembly without reflector interference.

An Ideal Match, CES Downlight + Frame Kits

New Construction Frame Kits Option

The frame kit was specifically designed for this series, it delivers the perfect aperture for a tight, seamless fit. This minimizes the space and materials required for installation. Steel housing frames are suitable for new construction. They are available in 4inch*, 6inch, 8inch and 10inch.

- PLT-90384 - 6" New Construction Mounting Frame
- PLT-90385 - 8" New Construction Mounting Frame
- PLT-90386 - 10" New Construction Mounting Frame
