

CURVED

LED PANLE/TROFFER HYBRID

Floating Curved Panel/Troffer Hybrid

Designed to deliver an unprecedented uniformity and functionality, this floating curved troffer features a compact yet sturdy aluminum construction designed to blend into modern architectural spaces. Featuring a low profile form factor, it is ideal for buildings with a low plenum space and is suitable for all standard grid ceilings. The specification grade TR Series is available in 2x2, 2x4, 1x4 sizes and perfect for offices, schools, and healthcare applications, goes beyond what was previously possible with traditional LED luminaires.

Original & Innovative Design

Designed from the ground up, this curved luminaire carry the meticulous processes of research, design, and engineering that is inherent to all specification-grade fixtures from 1000Bulbs. This domestic design process allows us to deliver top quality fixtures, ensuring high-grade components and support from a team that truly cares about the product we build.

Performance

This series provides quiet and smooth illumination for visual comfort while maximizing efficiency.
