TIPS

- To shape wreaths and garlands, gently pull all branches so they are perpendicular from the spine, then using your hands gently “brush” the branches in the same direction in one sweeping motion 3 to 4 times.
- To shape pot filler, gently fluff branches apart so lights, berries, and pinecones are evenly spread. For a droopier look, gently pull the branches around the base down.
- Store in a cool, dry place.
- If the product gets dirty, spray it with water and wipe with a soft cloth. Do not use abrasive detergents.
