ESXF LED Floodlights

Ultimate versatility and performance

Introducing the all-new ESXF LED Floodlight family from Lithonia Lighting®.

Designed with the functionality of 36 configurations in one, the ESXF LED floodlight has the performance and customizable options you need, right at your fingertips!

ESXF Features

- Available in five sizes suitable for replacing 150W quartz up to 1000W metal halide
- Adjustable lumen output with three settings*
- Switchable color temperature (3000K/4000K/5000K)
- Dusk-to-dawn photocell can be turned on or off
- Easy access to controls
- Wide flood distribution (7x7)
- Two mounting options included**

Typical Applications:

- Signage
- Outer Buildings
- Parking Lots
- Walkways
- Perimeters

*ESXF1 PO output is fixed at 2,500 lumens **ESXF1 PO is pre-installed knuckle only

Distributor

Easy to Order

- With only **9 SKUs**, ordering the right floodlight has never been easier

Easy to Shelf

- The ESXF provides maximum flexibility with up to **36 configurations** in one product

Easy to Sell

- **Cost-effective** solution with everything included in one box

Contractor

Easy to Get

- The ESXF is **always in stock** and available when you need it

Easy to Install

- **Two** of the most common mounting options are included in every box along with a cover plate**

Easy to Service

- IP66 rated aluminum cast housing ensures a **long lifetime**

Adjustable Lumen Output

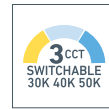

Most ESXF models provide three lumen settings* that are easily selectable on-location. If you need more illumination or want to reduce the intensity, the ESXF makes it easy. Adjust the brightness levels on the fly!

*ESXF1 P0 is 2,500 lumens only

Switchable Color Temperatures

Each ESXF includes three switchable color temperatures (3000K/4000K/5000K) to give you the illumination requirements specific to the job. On-the-spot reconfiguring is fast and effortless, eliminating any go-backs!
