LED Linear High-Bay

Network Lighting Controls

85W | 150W | 220W

Product Overview

INTENDED USE — Tiny series luminaire is the latest in ultra-economy yet high-performance LED linear highbay technology. Engineered to replace traditional fluorescent or metal halide highbays, Tiny delivers superior performance in a compact, easy-to-manage package.

The Tiny is also versatile and easy to install. It can be mounted in suspended or mounted environments, and is compatible with a variety of control systems.

CONSTRUCTION — The durable cast-aluminum housing is designed for durability and ruggedness. Finished with iron phosphate coating with rust inhibitor to protect against contaminants and oxidation.

OPTICS — The advanced optical design combines precision and uniform output. Crafted from high-grade polycarbonate, the refractor is carefully engineered to optimize light extraction, creating a radiant luminaire that enhances nighttime aesthetics. The UV-stabilized polycarbonate lens provides vandal resistance and improved light dispersion for better visibility.

ELECTRICAL — The light engine comprises long-lasting, energy-efficient LEDs mounted on an internal aluminum heat sink. This setup improves heat dissipation and extends the product's lifespan. These LEDs maintain 90% of their light output even after 50,000 hours of continuous operation.

WARRANTY — With a standard 7-Year/75,000hrs warranty, the Tiny is built to last. It can replace up to 2,000W MH, making it a reliable and cost-effective solution for a wide range of applications.

ARCHIPELAGO luminaires and LED components undergo rigorous testing by an independent laboratory to meet IESNA LM-79 and LM-80 standards for light output and lumen maintenance. LED color temperature is warrantied to shift no more than 180K over the standard warranty period. Correlated Color Temperature (CCT) follows the guidelines set forth in the American National Standard for Specifications for the Chromaticity of Solid State Lighting (SSL) Products, ANSI C78.377-2017.

Applications

Retail

Main Features

- Thermally Isolated Driver Design With 0-10V Dimming
- Iron + Aluminum for Superior Thermal & Structural Integrity
- Built-in 6KV Surge Protection With Option for in-line Surge Protection
- Compact Design Weighs Less, Minimizes Installation Time, and Performs at the Highest Levels as a Full-sized Linear High Bay
- Advanced Lensing Meets DLCV5.1 Standard for Unified Glare Rating (UGR) With Optional Distribution Optics
- Eco-friendly Contractor Packaging Reduces Packaging Waste
- Standard Suspend Mounting Hardware (Included)
- 70% Lumen Maintenance at >100,000 Hours
- Advanced Driver is Rated for AC97-305Vin
- Suitable for Use in -40°F to 122°F

Product Warranty*

7-Year Warranty

75,000 Hrs

* Standard warranty. Extended warranty available.

Highlights

Features	Description
blueARCH™ Controls	 SIG-qualified Bluetooth Mesh lighting control solution. NLC compliant. Technology by Silvalir.
Ultra-Economy High Performance	 Powerful performance, economical solution
Standard Extended Warranty	 Up to 7-Year, 75,000 Hrs

Model Specifications

Model	Wattage (W)	Lumen (lm)	Efficacy (lm/W)	CCT (K)	Voltage (V)	CRI

Notes:

Key Specifications

- **Dimming:** 0-10V
- **Efficacy:** 136~140lm/W
- **IP:** IP20 Indoor Damp Location
- **Input Voltage:** 120-277V & 277-480V
- **Power Factor (PF):** >0.9 Non-Flicker
- **Operating Temperature:** -40°F - 122°F
- **Total Harmonic Distortion (THD):** <20%
- **Color Rendering Index (CRI):** >80
- **Housing:** Iron + Aluminum

Certifications

**Suspension Aircraft Cables**

Suspended mount aircraft cables comes standard on every fixture.

Housing

Advanced thermal management anti-rust steel frame with white coat finish. Suitable for suspended pendent and surface mount.

Threaded Conduit

Support threaded throughput wires from conduit holes for easier end-to-end wiring connections.

Optional Emergency Driver

Operate for up to 90min w/ out line-voltage power.

Optional Microwave/PIR Motion Sensor

Optional motion sensor allows for security and energy savings.

NOTE:

- Only one selection may be applicable within the same category.
- 85W special order, made to order
- For 480Vin applications, reference Step-Down Transformer in the Options Guide.
- Multiple selections may be applicable within the same option category. See Compatible Accessories below for details.
- Standard cord length = 1.0FT
- Standard driver on-board SPD = 6KVa
- Standard 6FT suspension kit is included with fixture (**ISPM**).
- When ordering the EM Driver, the J-Box MUST be included with the order
