

COLOR & WATTAGE SELECTABLE LED VAPOR TIGHT FIXTURE

WARNING, CAUTION, SAFETY AND INSTALLATION INSTRUCTIONS

WARNING

- Installation, service, and maintenance of luminaires should be performed by a qualified licensed electrician.
- Specifications and dimensions are subject to change without notice.
- Risk of burn. Disconnect power and allow fixture to cool before changing the bulbs or handling fixture.

CAUTION

- Do not make or alter any holes in the wiring enclosure or electrical components.
- Verify that supply voltage is correct by comparing it to the luminaire label.
- All wiring connections should be capped with UL approved wire connectors.
- The green ground screw is provided in the proper location. Do not relocate.
- Minimum 90° supply conductors.

NOTICE

- Account for small parts and destroy all packing material, as these may be hazardous to children.
- Suitable for wet locations.

Installation Instructions

1. Locate and drill for the mounting brackets. Mount bracket to ceiling surface and hang the fixture to the bracket.	
2. Release latches by pulling top latch away from the housing, remove lens and remove the module board.	

-
- The diagram illustrates a cable management setup. A cable is shown entering from the top left, passing through a strain relief device, and then being routed through a cover. The cover is labeled "cover". A circular inset shows a close-up of the cable being secured by the strain relief. Another circular inset shows a close-up of the cable being routed through the cover.

-
- The technical drawing illustrates the LED strip light assembly. The top view shows a long, thin rectangular strip with a series of small, square LED chips mounted along its length. A cable is connected to one end of the strip. The bottom view shows the strip from a different angle, highlighting its profile. A circular inset provides a detailed view of the mounting bracket, which is designed to hold the strip in place. Arrows indicate the direction of assembly or the orientation of the components.

- Connect the line, neutral and ground to the input wires of the sockets.
- Be sure to connect the wet location rated strain relief gasket (included) to the side-hole of the housing and ensure that the gap is sealed by glue.

WARNING, CAUTION, SAFETY AND INSTALLATION INSTRUCTIONS

- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
- Wear gloves and eye protection at all times while installing, servicing, or performing maintenance on the luminaire, and avoid direct eye exposure to the light source while it is on.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.
- Do not install damaged product. Inspect luminaire for damage that may have occurred during transit. If damaged, contact the manufacturer immediately.
- These instructions do not purport to cover all details or variations in equipment nor to provide every possible contingency to meet in connection with installation, operation, or maintenance. Should further information be desired or should particular problems arise which are not covered sufficiently for the purchaser's or owner's purposes, contact the manufacturer.

⚠ ADVERTENCIA

- Antes de instalar, reparar o realizar el mantenimiento de rutina de este equipo, siga estas precauciones generales.
- Para reducir el riesgo de muerte, lesiones personales o daños a la propiedad por fuego, descarga eléctrica, caída de piezas, cortes / abrasiones y otros peligros, lea todas las advertencias y instrucciones incluidas con y en la caja del dispositivo y todas las etiquetas del dispositivo.
- Se requiere una conexión a tierra adecuada para garantizar la seguridad.
- Se debe apagar la energía en el disyuntor antes de la instalación o el mantenimiento.
- Este producto debe ser instalado de acuerdo con el código de instalación aplicable por una persona familiarizada con la construcción y operación del producto y los peligros involucrados.
- Utilice guantes y protección para los ojos en todo momento durante la instalación, el servicio o el mantenimiento de la luminaria, y evite la exposición directa de los ojos a la fuente de luz mientras está encendida.
- Para evitar daños o abrasiones en el cableado, no exponga el cableado a bordes de láminas de metal u otros objetos afilados.
- No instale un producto dañado. Inspeccione la luminaria en busca de daños que puedan haber ocurrido durante el tránsito. Si está dañado, comuníquese con el fabricante de inmediato.
- Estas instrucciones no pretenden cubrir todos los detalles o variaciones en el equipo ni proporcionar todas las posibles contingencias a cumplir en relación con la instalación, operación o mantenimiento. Si desea obtener más información o si surgen problemas particulares que no están suficientemente cubiertos para los propósitos del comprador o propietario, comuníquese con el fabricante.
